NOROVIRUS ALERT: WASH HANDS THOROUGHLY

- 1) Use soap and warm water.**
- 2) Wash for at least 20 seconds.**
- 3) Cover your palms, the back of your hands, in between your fingers, and under your fingernails with suds.**
- 4) Rub and scrub! It's the suds and the friction that kill germs.**
- 5) Use a disposable paper towel to turn off faucet.**
- 6) Use a new towel to dry hands and to open the restroom door before you leave.**
- 7) Alcohol-based hand sanitizers are not a substitute for hand washing with soap and water. Use hand sanitizers after washing hands.**

Report any norovirus symptoms – nausea, vomiting, diarrhea, fever, stomach cramps – to the Gallatin City-County Health Department at 406-582-3100 or 582-3120.
